False

06 Define

1 QUESTIONS ☐ Revised

Q1 Social health

ANSWER / SOLUTION
The ability of a person to establish relationship with other persons in the society is known as social health.

07 Answer in one sentence

1 QUESTIONS ☐ Revised

Q1 Write the names of two chronic diseases.

ANSWER / SOLUTION
AIDS, T.B., Leprosy are chronic diseases.

08 Give scientific reasons

3 QUESTIONS ☐ Revised

Q1 **Give scientific reason.**

Nowadays school children have to deal with mental stress.

ANSWER / SOLUTION

Nowadays school children have to face the problem of mental stress due to the following reasons:

i. Nuclear families and parents staying outdoors due to job.
ii. Bindings on girls and excessive freedom for boys in some families.
iii. Boys enjoy the concession from their domestic duties whereas girls have a compulsion for the same on the pretext that they should be used to it.
iv. Adolescent girls have to face the problems like teasing and molestation.
v. Increased competition in opportunities for education, further employment, and business.

Q2 **Give scientific reason.**

The importance of outdoor sports is incomparable.

ANSWER / SOLUTION

The importance of outdoor sports is incomparable since it confers the following benefits:

i. Causes physical exercise
ii. Improves discipline, interaction and tendency of unity
iii. Drives away loneliness
iv. Makes the person more social

Q3 **Give scientific reason.**

Alcoholism is always bad.

ANSWER / SOLUTION

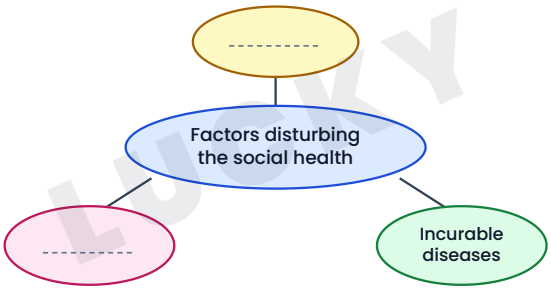

Alcoholism is always bad due to the following reasons:

i. Excessive consumption of alcohol/liquor leads to a decrease in efficiency of the nervous system (especially brain) and liver.
ii. Alcoholism reduces the lifespan of the person.
iii. In adolescents, alcohol affects brain development and reduces the ability of memorization and learning.
iv. An addictive person cannot think rationally and faces social, mental, familial illness along with physical illness.

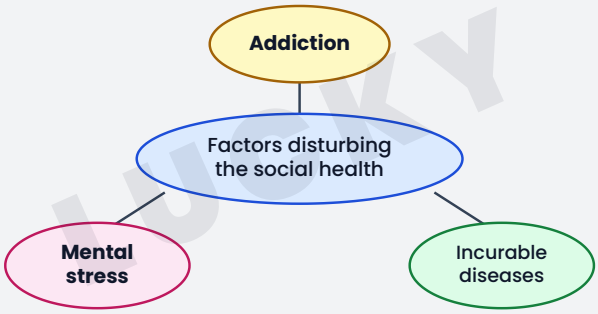

09 Solve the following questions

4 QUESTIONS · 3 ☐ Revised

Q1 Complete the following concept chart.

ANSWER / SOLUTION

Q2 Explain the importance of good communication with others.

TEXTBOOK Exercise · Q.2 (d) · Page 108

ANSWER / SOLUTION

i. Communication is extremely useful for expressing feelings. Different methods of expression include communicating with friends, colleagues, cousins, teachers as well as our parents.
ii. Expressing our feelings through communication with near and dear ones, noting down our feelings, etc. helps us to relieve stress.
iii. Communication also helps to spread knowledge and to build healthy relationships.
iv. Good communication with family members, friends, etc. can help us establish harmonious relationships with others in society.
v. Communication with others helps to overcome your problems, provide you with moral support, and also get to understand the perspective of people on different issues.
vi. Good communication skills do not only mean good verbal skills but it also implies one's listening skills. Apart from being a good orator, it is important that you are a good listener too. One should listen patiently to people around them and help them in the best possible way.

In other words, we can say that good communication skills result in the all-around development of an individual.

Q3 What will you do? Why?

Your friend has developed the hobby of snapping selfies.

TEXTBOOK Exercise · Q.6 (e) · Page 108

ANSWER / SOLUTION

The bad habit of constantly taking selfies may endanger the life of a person as he is unaware of the risks in his surroundings.
If I find that my friend has developed the hobby of snapping selfies:

1. I will warn him to be careful when taking selfies and to stay aware of his surroundings to avoid accidents.
2. I will try to persuade him to avoid taking selfies on every occasion and instead enjoy the moment with friends and/or family.

Q4 What will you do? Why?

Child of your neighbour is addicted to tobacco chewing.

TEXTBOOK Exercise · Q.6 (b) · Page 108

ANSWER / SOLUTION

If I find that the child of my neighbour is addicted to tobacco chewing:

1. I will make him aware about the health problems associated with chewing tobacco like mouth cancer, tooth decay, gum diseases, etc. This will help him to make a decision about quitting tobacco.
2. I will advise him to reduce the use of tobacco every day till he finally quits it completely.
3. I will also make him talk to his family or friends regarding the issue, so as to help him get rid of the habit.

10 Write short notes

2 QUESTIONS · Revised

Q1 Write a short note.

Addiction

ANSWER / SOLUTION

i. Peer-group influence is stronger in the case of adolescents. Adolescents always prefer the company of friends and follow their good or bad habits instead of following advice of parents and teachers, thus leading to various addictions.

ii. Children in their early age try upon tobacco, cigarette, gutkha, alcoholic drinks, drugs, etc. due to either peer-group pressure or symbol of high standard living or as an imitation of elders. However, it may lead to addiction to such deadly substances.

iii. Temporarily intoxicating drugs of plant origin and some chemicals may permanently damage the human nervous system, muscle system, heart, etc.

iv. Persons spending the time with cell phones for several hours are usually unaware of the surrounding. This is also a sort of addiction and leading to endangering of the social health.

Q2 Write a short note.

Various ways for stress management

ANSWER / SOLUTION

The various ways for stress management include the following:

i. Communication with friends, peers, cousins, teachers, family members, etc.

ii. Fostering hobbies like photography, reading, cooking, sculpturing, drawing, etc.

iii. Physical activities like sports, regular exercising, yoga, etc.

iv. Inculcation of character traits like time management, planning.

11 Answer the following questions

5 QUESTIONS · 3 · Revised

Q1 What will you do? Why?

Your sister has become incommunicative. She prefers to remain alone.

TEXTBOOK Exercise · Q.6 (c) · Page 108

ANSWER / SOLUTION

Feeling lonely or not communicating with others can lead to mental stress. This can eventually affect one's physical, mental and social health.

1. I will talk to her and try to find out the reason for her aloofness and the stress. I will discuss her problem and help her find a solution to her problem.
2. I will try to get her to speak with family members and participate in family discussions and functions. I would also encourage her to pursue her hobbies. This can help her divert her mind from the issues that are troubling her.
3. If required, I will advise her to consult a professional counsellor and discuss her problems.

Q2 What will you do? Why?

You are spending more time in internet/mobile games, phone, etc.

TEXTBOOK Exercise · Q.6 (a) · Page 108

ANSWER / SOLUTION

If I start spending more time on the internet/mobile games, phone, etc. I would follow the steps below:

i. Designating activities during which the usage of the internet or mobile phones should be strictly avoided. For example, during meals, while studying, etc.

ii. Talking to family members or friends when I feel lonely instead of using the internet or mobile phones. This will reduce the habit of using mobile phones during idle time.

iii. Develop hobbies like reading books, writing a diary, collecting various materials, drawing, singing, listening to music, etc.

Q3 **What will you do? Why?**

You have to use free space around your home for good purpose.

TEXTBOOK **Exercise** · Q.6 (d) · **Page 108**

ANSWER / SOLUTION

1. We can build a small yard in the empty land around our house. You can buy garden soil and spread it out in this empty spot. You can put small saplings here and care for them so they grow. This empty room could also be used to start a nursery for young trees.
2. You can also play games outside in that area. Badminton nets can be set up, and people can play the game in the evenings. Also, the area will be kept clean and free of trash.

Q2 **a. What mental disorder is shown in the given picture?**

b. What social message would you give from this?

ANSWER / SOLUTION

a. The given picture shows pedestrians making a video clip of the accident scene rather than helping the victim. People taking videos at the site of the accident are irresponsible, insensitive and lack helpful nature.

b. The social message is to think about the impact of one's action before indulging in such an irresponsible activity. Rather than posting these disturbing images/ videos on social media, people should think about helping the victims or calling for help and be more sensitive to the victims and their families.

Q3 **Complete the following.**

(lungs, carcinogenic, nervous system, useful, deadly, addiction, intoxicating)

Children in their early age try upon tobacco, cigarette, gutkha, alcoholic drinks, drugs, etc. due to either peer-group pressure or symbol of high standard living or as an imitation of elders. However, it may lead to _____ to such _____ substances. Temporarily _____ drugs of plant origin and some chemicals may permanently damage the human _____, muscle system, heart, etc. Earlier, we have studied the _____ effect of tobacco containing substances on mouth and _____.

ANSWER / SOLUTION

Children in their early age try upon tobacco, cigarette, gutkha, alcoholic drinks, drugs, etc. due to either peer-group pressure or symbol of high standard living or as an imitation of elders. However, it may lead to **addiction** to such **deadly** substances. Temporarily **intoxicating** drugs of plant origin and some chemicals may permanently damage the human **nervous system**, muscle system, heart, etc. Earlier, we have studied the **carcinogenic** effect of tobacco containing substances on mouth and **lungs**.

12 Solve the following questions

7 QUESTIONS ☐ Revised

Q1 What does the next picture show? What will be the effect?

ANSWER / SOLUTION

i. The picture shows a man taking selfies on the road also known as selfiecide.

ii. **Effect:** Taking selfies on road may lead to severe injuries or death, as the person becomes so engrossed in clicking selfie that he is not aware about the world around him.

Q2 What does the next picture mean?

ANSWER / SOLUTION

This picture indicates that we should stay away from addictive substances like alcohol, tobacco, cigarette, gutkha, drugs.

Q3 **Observe the figure and write the answers to the questions asked.**

a. What does this picture show?
b. Explain any two reasons for this problem.
c. Name any two solutions to solve this problem.

ANSWER / SOLUTION

a. The picture shows a person becoming victim to mental stress.

b. **Some of the reasons for the increase in mental stress are as follows:**

i. Increased competition in opportunities for education, employment and business.
ii. Loneliness and mental stress in children due to reasons like nuclear family and parents staying outdoors for work.
iii. Increased social disorder, crime and violence.
iv. Persons turning to crime and violence as easy means of earning money and finally becoming a victim of the same system.
v. Stress in girls due to excessive bindings on them at home as compared to boys.
vi. Stress in adolescent girls due to social evils like teasing and molestation as well as gender inequality.

c. **Some of the ways to reduce mental stress are as follows:**

i. Maintaining good communication and expressing our feelings to friends, peers, cousins, teachers and parents or noting them down in a diary.
ii. Utilizing the free hours in fostering hobbies like material collection, photography, reading, cooking, sculpting, drawing, making rangoli, dancing, singing, listening to music, etc.
iii. Diverting energy and mind towards positive thinking, so as to neutralize the negative thoughts. Regular exercising, getting a massage, practicing yoga and meditation.
iv. Laughing loudly so as to relieve stress.
v. Playing sports and outdoor games so as to involve physical exercise, inculcate discipline, increase interaction with others, drive away loneliness, etc.
vi. Inculcating traits like time management, planning of our own duties and taking own decisions.
vii. If any of the above methods fail to reduce stress and leads to more serious problems like depression and frustration, then medical help, counselling and/or psychotherapy should be taken.

Q4 **Write answers to the questions based on the paragraph.**

Social health is the ability of a person to establish relationships with other persons. Ability to change one's own behaviour according to changing social conditions is an important characteristic of social health. A socially healthy person can also cope with a variety of social situations. Can behave appropriately and be adaptable to changing circumstances. Your spouse can match such people with your co-workers and form good relationships. All of these relationships require good communication. It is important to have empathy and a sense of responsibility for each other. On the other hand, there are negative shades like jealousy, revenge, and loneliness. If there is tension in the relationship, healthy relationships will not be formed. Stress management, planning appropriate measures e.g. Regular exercise, deep breathing, and a positive attitude can improve social health.

a. What is social health?
b. What qualities are needed to build good social relationships?
c. Which vices have negative consequences?
d. What measures would you take for stress management?
e. Give two examples of negative shades.

✓ **ANSWER / SOLUTION**

a. Social health is the ability of a person to establish relationships with other persons.
b. **The following qualities are needed to build good social relationships:**
   i. Ability to change one's own behaviour according to changing social conditions is an important characteristic of social health.
   ii. A socially healthy person can also cope with a variety of social situations.
   iii. They can behave appropriately and be adaptable to changing circumstances.
   iv. Good communication with others.
c. Vices like jealousy, revenge and loneliness have negative consequences.
d. Regular exercise, deep breathing, and a positive attitude are measures to take for stress management.
e. Jealousy, revenge and loneliness.

Q5 **What factors determine social health?**

✓ **ANSWER / SOLUTION**

The factors that determine or affect social health are as follows:

i. The ability of a person to establish relationships with other persons in the society is known as social health.
ii. **The main factors which disturb the social health of an individual are:**
   a. Mental stress
   b. Addiction
   c. Incurable diseases
   d. Excessive use of modern technology
iii. **Apart from these the other factors which affect the social health are:**
   a. Education and financial status of people.
   b. Number of gardens and play grounds in the vicinity.
   c. Social and physical conditions of the surroundings.
   d. The type of residential area.
   e. Provision of water and availability of toilets
   f. Political conditions (views)
   g. Social treatment of people
   h. Social safety
   i. Transport facilities
   j. Education and job opportunities
   k. Fulfillment of basic needs of people including food, clothing, shelter and medicines.

Q6 What are the changes in a person due to constant contact with the internet, mobile, phone?

ANSWER / SOLUTION

Some of the effects of excessive and irrational use of internet and mobile phones include the following:

i. Person using mobile phone for a long time remains unaware of his or her surroundings.
ii. The radiation of mobile phones causes several problems like tiredness, headache, insomnia, forgetfulness, tinnitus (buzzing in the ears), joint pains as well as problems in vision.
iii. The radiations affect children more than adults.
iv. Also, continuous use of computers and the internet makes a person solitary and incapable to establish harmonious relations with relatives and other members of the society.
v. Such habits further make a person self-centered in nature and thereby lead to problems like selfishness.
vi. The person tends to become less sensitive towards others and the long-term effect of such tendency is that he stops helping others and is also not helped by other people when needed.

Q7 Write the answers to the questions by observing the picture.

a. What is the concept shown in the picture?
b. Write its benefits.
c. What do you do when you feel stressed?

ANSWER / SOLUTION

a. The concept of laughter clubs in which people relieve mental stress by laughing loudly is shown in the picture.
b. The benefits of laughter clubs are to relieve mental stress and improve social health.
c. To relieve stress, I foster hobbies like material collection, photography, reading, cooking, sculpting, drawing, making rangoli, dancing, singing, listening to music, etc.

Healthy mind, healthy society. Keep revising.
